

PHOTO HIGHGLOSS PREMIUM RC

315 g/m²

Photo HighGloss Premium RC consists of an ultra-smooth, alpha-cellulose, acid-free paper coated with polyethylene and multiple microporous colour receiver layers. This ultra-white photo paper currently has the highest gloss level of the photographic resin-coated paper market. This paper offers vivid colours and deep blacks, coupled with excellent image sharpness, with a resolution of up to 5760 dpi.

Photo High Gloss Premium RC has been designed to comply with the highest lifespan requirements and respects the ISO 9706 standard.

Photo High Gloss Premium RC offers an exceptional Dmax and extremely wide colour gamut, making it the product of choice for stunning colour photos.

Product Features and Benefits

- · Compatible with pigmented and dye inks
